

2005 Review Panels

These are the review panels for 2005. Every submission was sent to two people for review, and, except for discussion hours and memorial panel discussions, the identity of authors was not known. We wish to recognize their service to SRCD and thank them immensely for their efforts. Without the reviewers, there would be no biennial meeting program. Panel chairs and reviewers, please take a bow! [* = Member of the international community; ^ = Volunteered to serve]
