We would like to connect groups of scholars at all levels who are interested in the challenges and opportunities of doing interdisciplinary research in child development. Join scholars from psychology, human development, sociology, family studies, biology, education, pediatrics, psychiatry, social work, public health, economics, anthropology, and other disciplines to discuss how SRCD can support and enhance interdisciplinary research.

**Are You a Scholar Interested in Interdisciplinary Research?**

**JOIN US for Coffee and Discussion**

_Sponsored by SRCD Interdisciplinary Committee and Student & Early Career Council (SECC)_
